PRESSKIT ///

VAPORIZED.DK

Firmly rooted in the classic goa-trance scene and with a career going back to 1994 with his well known project **ELYSIUM** and many co-op projects such as **SHEYBA** Kristian has grown into an artist who embraces the trance genre's forward progression and is confident in what he wants to say.

Lighting a fire with his **VAPORIZED** debut single **RETURN TO THE SOURCE** Kristian has since been busy working on new material - eight singles so far - and is soon ready to release his debut **VAPORIZED** album **AEQUOR VITAE**.

With **VAPORIZED** Kristian explores more of a "**back-to-the-roots**" trance where the music is allowed to slowly evolve and breath.

"I wanted to return to the way I think trance should be like. To me trance is a slow building journey on the dancefloor by it's hypnotizing patterns and deep soundscapes. Repetitively rhythmic to put you in a state of trance."

– Kristian
